

V4500 INSTALLATION GUIDE

Unit installed directly into OBD port:

1. Locate the "OBD-II Data Link Connector" (DLC) (A). Generally under the driver dash.
2. Plug the V4500-M into the OBD port

Unit installed with Y-Cable:

1. Locate the "OBD-II Data Link Connector" (DLC) (A). Generally under the driver side dash.
2. Remove the DLC (A) from its current housing. You may need to remove the panel from under the dash.
3. Replace the DLC with the Y-Cable (B).
4. Plug (C) into the DLC (A).
5. Secure the V4500-M and cable (D) under the dash so that it is out site.
